### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to an isolated DNA of SEQ ID NO:1 or encoding SEQ ID NO:3, expression vector and isolated host cell.

Group II, claim(s) 1-5, drawn to an isolated DNA of SEQ ID NO:2 or encoding SEQ ID NO:4, expression vector and isolated host cell.

Group III, claim(s) 6-9, drawn to an isolated SEQ ID NO:3.

Group IV, claim(s) 6-9, drawn to an isolated SEQ ID NO:4.

Group V, claim(s) 10-12, drawn to a method of determining an agonist with isolated SEQ ID NO:3.

Group VI, claim(s) 10-12, drawn to a method of determining an agonist with isolated SEQ ID NO:4.

Group VII, claim(s) 13, drawn to an antibody which bind isolated SEQ ID NO:3.

Group VIII, claim(s) 13, drawn to an antibody that bind isolated SEQ ID NO:4.

The inventions listed as Groups 1-VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features and thus, does not share a special technical feature with any other group.

The special technical feature of Group I is a nucleic acid, an expression vector, and a recombinant cell. Pursuant to 37 CFR 1.475(d), these claims are considered by the ISA/US to constitute the main invention, and none of the related groups II-VIII correspond to the main invention.

Art Unit: 1646

The products of Groups II-IV and VII-VIII does not share the same or corresponding special technical feature with Group I, because they are drawn to products having materially different structures and functions, and each defines a separate invention over the art.

The methods of Groups V-VI, do not share the same or corresponding special technical feature with Group I, because the methods have materially different process steps and are practiced for materially different purposes, and each defines a separate invention over the art.

Since Groups I-IV do not share a special technical feature, unity of invention is lacking.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
